Week 6: Manual Data Collection

Data Literacy

Monday: Manual Data Collection

- Read Lakshmi Gopal, "Manual Data Entry—Challenges, Types, and Automation in 2024"

Wednesday: Crowdsourcing Data

- Read:
  - Shehmir Javaid, "Crowdsourced Data Collection Benefits & Best Practices in 2024"
  - "Crowdsourcing Digital Public History" by Jason A. Heppler and Gabriel K. Wolfenstein

Friday: Data Collection workshop.

- Group Work
  - Describe a use case for manual data collection or crowd-sourcing data in your domain.
    * Which method would you choose?
    * Describe a problem in your domain you could solve with that method.
    * How would you design the data collection method?
      · What would you collect?
      · How?
      · Why?
      · How could that data be useful to your domain?
      · How would you define your criteria?
      · Are there any ethical implications?
  - Share your use case with the class.
